Linking to full-text articles

You can set Google Scholar to show links to full-text articles provided by the University of Glasgow.

This has two advantages:

- You can link to the article and immediately access the full-text or login when prompted with your GUID and password. This saves time having to look around the publisher or other web page, for the appropriate login prompt.
- You can see at a glance which articles the University of Glasgow provides in full-text and those that it does not. This avoids having to link through the publisher page to find that you cannot access the article in full text.

To set up the links:

- Go to Google Scholar <u>scholar.google.co.uk</u>
- Click on Settings at the top of the screen

The Google Scholar button

You can add the plug-in, Google Scholar button to your web browser. This allows you to search Google Scholar from any web page. Simply highlight the text you want to search on Google Scholar and press the Google Scholar button on your browser address bar.

For example, you could search for a paper from the reference list on a journal article or bibliography in a book chapter.

- Go to Google Scholar <u>scholar.google.co.uk</u>
- Click on Settings at the top of the screen
- Click on Button from the menu on the left, and then on the Install Scholar Button to look up papers as you browse

Google
